BANDA SAI VENKAT

bandasaivenkat6@gmail.com | +91 8143161626 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate skilled in Java, Python, JavaScript, and SQL, with hands-on experience in full-stack web development, MongoDB-based CRUD applications. Experienced in building responsive, role-based web applications and using Git/GitHub for collaborative, version-controlled development. Certified in Java Full Stack Development and Python programming, with an active competitive programming background of 300+ problems solved across Leet Code, Code Chef, and HackerRank. Passionate about applying strong problem-solving and web development skills to build efficient, real-world software solutions.

EDUCATION

MLR Institute of Technology, Hyderabad, India 2023 – 2027
Bachelor of Technology in Computer Science Engineering GPA: 7.96/10

Narayana Junior College, Kurnool, India 2021 – 2023
Intermediate (MPC) Percentage: 84.7%

St Joseph's High School, Kurnool, India 2009 – 2021
Tenth(CBSE) Marks: 376/500

SKILLS SUMMARY

- **Programming Languages:** Java, Python, JavaScript, SQL, C
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Power BI, Excel, PowerPoint, VS Code, IntelliJ IDEA, PyCharm
- **Core Subjects:** Data Structures & Algorithms, Object-Oriented Programming, DBM

WORK EXPERIENCE

Full Stack Web Development Intern | Web Stacks Academy (WSA) June 2026 – July 2026

- Developed responsive full-stack web applications using HTML5, CSS3, JavaScript and MongoDB during a 4-week internship.
- Built reusable React.js components and implemented state management to improve code maintainability and streamline front-end development.
- Performed end-to-end CRUD operations using MongoDB and Mongoose by designing schemas for efficient data storage and retrieval.
- Used Git and GitHub for version control, collaborative development, and maintaining project repositories throughout the development lifecycle.

PROJECTS

Online Out pass Management System (Link) - HTML, CSS, JavaScript

- Developed a role-based web application to manage student outpass requests.
- Implemented separate modules for students, wardens and security personnel.
- Built an intuitive user interface with efficient request approval workflow.
- Improved request tracking and reduced manual paperwork through digitization.

Learning Management System

- Developed a full-stack Learning Management System (LMS) using Web development .
- Implemented user authentication and role-based access control for students, instructors, and administrators.
- Built features for course creation, student enrollment, assignments, quizzes, and progress tracking.

CERTIFICATIONS

- Java Full Stack Development (AICTE & Brainovision) — 2025
- Crash Course on Python (Google - Coursera) — 2023
- Solved nearly 300+ coding problems across LeetCode, CodeChef and GeeksforGeeks.
- Received Java 3 star silver badge in hackerRank
